

One Stop Service Company!

**One Stop Service Company!**

Mudhopper is trained and experienced. We have decades of combined service experience in solids control. Let us be your one stop servicing company. We have service combined with competitive pricing that our competition cannot beat.

“This is the best service company I have seen in years, Mudhopper has someone out on location constantly.”

EnCana—Barnett Shale

## The Closed Loop Specialist

Mudhopper Oilfield Services, Inc. provides *Total Fluid Management*—Complete fluid and solids control using our exclusive closed loop *Pit Management* solution.

Mudhopper Oilfield Services, Inc. offers a complete line of mud products, proprietary corrosion control, and comprehensive mud engineering services with 24-hour technical support.

**Total Fluid Management:** Mudhopper Oilfield Services, Inc. employs a system wide integrated approach to managing fluids and solids from spud to rig release. We work closely with our clients customizing full service pit management programs specifically designed to maximize operations while minimizing solid waste and liquid haul offs.

**Pit Management:** Mudhopper Oilfield Services, Inc. offers 24 hour dedicated service with hands-on management and quality control supervision. Our service technicians are experienced and skilled in our pit management and dewatering systems.

**The Closed Loop Specialist:** Mudhopper Oilfield Services, Inc. uniquely offers fluid and solids control, mud products, mud management, and mud engineering services all in one company. We service Texas, Oklahoma, Arkansas, and Mississippi. As a fully equipped service company we are ready to provide service anywhere in the nation.

**Full Service Fluid and Solids Control:** Centrifuges, dewatering units, pits and tanks, screens, shakers, dryer shakers, corrosion control and mud cleaners.

**Full Service Mud Company:** Sack and liquid mud, premix systems, ABO tanks and pumps, including portable mud systems and engineering services.
